

JAMESWAY

PTO AGITATOR

Jamesway's PTO Agitator makes fast work of tough bedding.

Getting the really tough pits agitated quickly means you are hauling sooner and spending less on fuel, so the Jamesway PTO Agitator is the right choice for these jobs. The auger-type agitator not only produces big flow and turbulence, the shear edge cuts off solids as they enter the screw, making bedding reduction faster than ever. Of course, chopping up solids is hard work so the Jamesway PTO Agitator features a heavy duty frame and driveline while the lower bearing assembly is specially designed to stand up to twine, bedding, grit and sand. It all adds up to faster agitation and less downtime. Your Jamesway Dealer will help you choose the right model for your needs.
