

**JAMESWAY**

# **TRANSFER KITS**

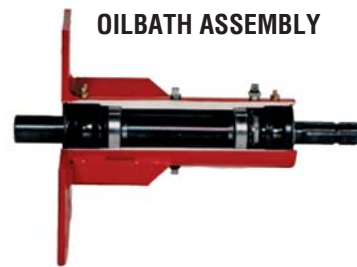

High efficiency manure spreading often includes the use of transfer kits to pump liquid manure from a transport tank to a spreader tank. The Jamesway Transfer Kit is modular so that it can be assembled in many different configurations to suit your needs. All components are made from extra thick steel to withstand the wear of sand-laden manure. The hydraulic powered gate valves feature a cast iron body and stainless steel gate for dependability.

## IMPELLER KITS

Jamesway Impeller Kits include all the same heavy duty features found on our spreader tanks. The H.D. oilbath bearing assembly protects the hydraulic motor from manure exposure while the T-1 steel construction assures long life. The swing-open door makes cleaning fast and easy.

SWING-OPEN IMPELLER

Visit our website for more information on these Jamesway products!

### MANURE SYSTEMS:

- Alley Scrapers
- Vertical Electric Pumps
- Electric Prop Agitators
- Vertical PTO Pumps
- Piston Transfer Pumps
- Cross Gutter Systems
- Barn Cleaners

### MANURE APPLICATION:

- Non-Steer Spreader Tanks
- Steerable Spreader Tanks
- Injection Systems
- Truck Mount Tankers
- Lagoon Pumps
- Prop Agitators
- Loading Pumps

### FEEDING SYSTEMS:

- Silo Unloaders
- Feeders
- Conveyors
- Hammer Mills
- Power Feed Carts
- Bedding Choppers

Jamesway Farm Equipment products are designed in conformance to ASAE Standards S354.4 "Safety for Farmstead Equipment" and S318.15 "Safety for Agricultural Equipment". Some photos in this brochure have safety shields removed or open to show additional detail on equipment features. Never operate equipment without safety shields in place. Jamesway continually updates and improves products and reserves the right to make changes in the design, specifications, and to add improvements to our products, without incurring an obligation on equipment purchased.
